

Volunteers:

Volunteers needed for Fall Banding Season 19 July until 23 September, 2017

We encourage people with a true interest in birds to consider donating their time to volunteer at our banding station. Experience working at a banding station would be a great asset.

A small travel trailer is available as accommodation for visiting volunteers. This sleeps two people. Kitchen facilities and an outhouse are on site. Bring your own bedding.

We would like volunteers to be able to commit to being at the station at least a week. Please contact Mackenzie Nature Observatory for more information – send an email to jlambie@telus.net.
